Introducing
THE ALL NEW

REGAL 44 SPORT COUPE

REGAL 44

Sport Coupe

After 40 years of boat building, we're still thrilled to introduce new and exciting products every year. This year, we're proud to present the all-new Regal 44 Sport Coupe.

As a company full of boaters – from customer service, to the sales force, to the corner offices – boating runs through our blood. We invite you to closely inspect the 44 Sport Coupe and discover all the details that were built in this boat with your comfort and convenience in mind. For example, we've placed a fresh water hose in the transom locker and another in the anchor locker so there's no need to drag a hose through the cockpit while cleaning. The hard top was designed with an expansive, electric sunroof to put you in control of your boating environment, and we included enough storage to fit all the gear you'll need.

As the current stewards of the Regal brand, we are committed to excellence in boating and understand that owner satisfaction is the single greatest challenge we have. Thank you for considering Regal for your next boat and we look forward to the opportunity to exceed your expectations.

REGAL ADVANTAGES

■ Convertible Hardtop

The recent trend may be to have an opening sunroof or skylights on an enclosed hardtop, but Regal's never been one to follow trends, only set them. Case in point, the new Regal 44 Sport Coupe's convertible hardtop. The convertible top, which spans the entire beam of the cockpit, electrically slides to reveal a 38-square foot opening. No obtrusive brace to handle or obstruct sight lines.

■ Windshield Walk-Thru

The 44 SC provides the best of both worlds – the comfort and clear sight lines of an enclosed hardtop with the convenience and safety of a windshield walk-thru. Equal parts beauty and function, the windshield walk-thru features Flexiteek inlays and a safety rail.

■ Glass Cockpit Enclosure

Enrich a day on the water with the optional glass cockpit enclosure. The solid partition encloses the forward cockpit seating area without having to set-up canvas. When accompanied by optional Cool Cockpit, passengers are no longer at the mercy of inclement weather.

■ Personalization

The Regal 44 SC allows owners to personalize their express. Multiple selections of countertops, fabric, cabinetry and flooring make each 44 SC as individual as the owners themselves.

■ Pre-Production Price

With a pre-production price beginning at \$489,000, the Regal 44 SC offers a world class 44-express at an unparalleled value.

■ Euro Aft Cockpit Sun Lounge

The 44 SC features the largest sun lounge in its class with the aft Euro cockpit sun lounge. The multi-position backrest will keep four sun bathers relaxed and tan. But true mariners will relish the hands-free storage access below.

■ Single Level Cockpit Sole

The 44 SC's single level cockpit sole provides enhanced sociability as opposed to multi-level cockpits. Guests remain within eye and ear shot of each other regardless of where they sit. All sport yachts entertain, the Regal 44 SC just does it better.

■ Entertainment Upgrades

The 44 SC offers the latest in digital entertainment:

- The master stateroom comes well appointed with a standard 23-inch LCD TV.
- The cockpit can be upgraded with a 26" LCD TV, which electrically lowers from the hardtop.
- The optional DSS satellite TV system allows owners access to favorite HD programs at the dock, under way or in a remote port of call.
- The mid-cabin can be ordered with an optional media center, which includes a 23" LCD TV and DVD player.
